

## **NHS prayer**

We might not clasp our hands together  
But we'll hold hands with you  
We might not recite words from our lips  
But we will sit in silence with you

We're not kneeling in plea, or bowing our heads  
But we will sit right by your side  
You may not think we are listening  
But we always hear your cry

We may look distracted as we busy along  
And you fear you will be missed  
But please rest assured, as we juggle it all  
You're at the top of our list

We may be avid believers  
In a Devine being above  
We may not believe in anything celestial  
But we always believe in love

We don't turn you off at the end of our shift  
We worry about our day  
Did we do the right thing, did we give the right care?  
This is how we pray

So please, we know it's a worrying time  
We understand, we really do  
In this together, we make a great team  
And we'll always be here for you.

In Commemoration of all sadly lost their lives during the the Covid  
Pandemic 2020, and in tribute to the NHS staff who worked tirelessly  
throughout.
