

In denial of
SENESCENCE

DREAM - you must have had one once,
like you had a husband

having filed those things away,
LAUGH at losing
the key

REALITY - surround
yourself with a
bassinet of fools

pretend you haven't
heard when a question
STINGS

MYTH
- you believe you will
live forever,
despite the doctor
(who has to be reminded)

medication is VITAL

INTUITION - drift
like a jellyfish

you know someone
who will ALWAYS be there
to put you back on course ...
