

## Real Villain

take a tape measure to the skirt  
you are skirting around the issue

put your thumb over the bottle  
no restrictions on his hands  
when he lays them on you

don't have that last drink  
no thought for the poison in his veins

don't walk home alone  
why are there only girls in the class  
when they are teaching how to refrain

keep your keys between your fingers  
you are forgetting who's key to this

take all precautions necessary  
apart from acknowledging  
who the real villain is
