

Why do you still have faith in humanity?

To repeat yourself, expecting a different result is insanity  
But repeatedly faith is placed in humanity

To help, to better, to fix, to save  
Are we blinded by faith from cradle to the grave?  
A grave humanity puts you in  
Through pollution, greed, lies, sin

Countries burn and sea levels rise  
Will humanity be humanity's demise?

Repeatedly relied upon  
As accepted as gravity  
When is faith in humanity insanity?
